her negal quick despatch, having been in port only eight ing which she discharged and took in full co During the past sight days, there have been landed been about one thousand time of reserved membrandise, all from San Francisco, Invoiced at over \$100,000. This is in addition same period. This indicates very clearly that San Feuerise. is absorbing the supply reads of this archipelago, as war an timpated under the treaty.

and rice produced is being sold here before shipment. This is the custom in other sugar growing countries, and in the end insures the largest profits to the producers, who should never run the risks and uncertainties attending shipments

From Maurithis we have advices that the crop is above the the new crop have been sold for the Eugli demarket, at eight crystals command former 50 per cut. [112 Ha.] Haw, bark Toloni is loading for San Francisco, but may

not get off before Agril 10. Bark Legal Tender will take a return curgo of oil to San

o, but will not leave for several weeks. The S. F. Alts gives the expect of tressure from that port to Honolule during January as follows, and remarks that the amount is larger than the total for the year 1876;

from the total ro-\$70.763 00 = 245 45 104,030 45 It is doubtful whether the importation of twenty-dellar brouldlash, and are expected to Culus and elegators. Tells

The San Francisco News Lotter has the following relation to the trade between that port and Honeltin, since the reelprocity fronty wont into operation, which confirms the ms of the Irlands of the treaty :

"The Hawaisan trade with this port appears to be very steadily if not rapidly augmenting. The treaty seems to have given quite an importer to the Inflanders. The security City of Sydney on her last trip over brought as 4746 pkgs of sugar, to begs codes, but butches bearings etc., and in re-turn therefore we have deeps their for saving vessels with-in a week. The barks B. C. Murray, H. W. Alany, Legal Tender and schoons W. H. Myer, all with full curyons of general merchandles, some phaseigers and some 500 000 in ressure. From Hondalo we are addied of an active de-mand for sugars, and that the Bay Endusy is their, through its agents, affecting to lany sugar at one cent per h more than the California Heñnery contracted months ago for some than the Caldornia Refinery contracted months are for Several million pounds. This and other circumstances have instilled new life outs the island plantlers, and they are now increasing time area for again, coffee and rice cultivation, and at the same time sending us large quantities of bananas and other products."

DIED. HOWLAND—In Honeintu, March 14th, Capt, HENRY Fromann Howland. He was born in New Bedford, Mass, 2d January, 1812. Deceased leaves a widow and 2 children to mourn the loss.

CHOICE PROTOGRAPHS.-All Wishing to obtain any of Mr. Chase's fine photographs of Island Scenery or Island Celebrities will find them at the Bookstore. All the negatives having been des-troyed in the late fire, the supply of these pictures is limited.

FIRE! FIRE!-On Sunday afternoon last the Cosopolitan Photograph Gallery, on the west corner of Fort and Hotel streets, belonging to Mr. H. L. Chase, was consumed by fire. About three o'clock a young man named Spencer, who was passing up lery was situated, by a crackling sound like the breaking of glass. A passer-by, whose attention he called to the Loise, remarked that there was probably a drunken man in the house engaged in amsking bottles. But in a few minutes a faint smell of burning paper convinced him that a fire was underwap, and he mentioned his belief to a polleeman who was on duty near by, and ran off to the bell-tower to give the slarms. When he reached the fre-bell the smoke was already making its way through the shingles of the roof. Engine Company the others. Before the arrival of any assistance the upper story of the building was well on fire within, rendering it impossible to save any of the apparatus, chemicals, or negatives appertaining to the gallery, and Mr. Chase lost his entire stock, with the exception of a few show-cases of finished photographs and some other articles of triffing value which were in the reception-room down stairs. His loss amounts to \$2000. The stock of dry goods. His loss amounts to \$2000. The stock of dry goods belonging to Mosers. Grunwald & Schutte, who occupled the lower part of the building, was nearly all removed, but was somewhat damaged by water. One thousand dollars will cover all their loss. That it was no greater is due in a great measure to the prompt action of some of the men from H. R. M's. S. Fantome, who, perceiving that a fire was in progress up-stairs, authositatingly broke in the goods to a safer place, thereby seiting a laudable example to the crowd of policemen and others who were standing around doing nothing, but which they were not long in following. The upper story of the house was entirely consumed, but the lower story remains almost untouched by Nrc, neither did

NOTES OF THE WEEK

THE DEVELOPMENT COMMISSIONERS left Hillo on the 19th instant for Puna, the Volcano and Southern Hawali. All well.

REAL ESTATE SALE .- The house and lot on Bere tania street, owned by Mr. W. G. Poole, which was sold at Auction vesterday by Mr. Bartow, brought the sum of \$4,100. A very fair price. Brig Elise which left this port on Feb. 11th

and the schooper Fanny Hare which sailed on the 13th, both arrived at San Francisco on the 2nd of March; the latter making the passage in 16 days. PER STEAMER CITY OF NEW YORK .- The Italian Consul, F. A. Schnefer Fsq., takes passage on the

incoming steamer, for San Francisco, en route for Europe and home. He expects to be absent about six months. We wish him a delightful tour. POLICE JUDGE, HILO.-Judge Kains, who for a number of years has held the office of police judge at Bilo, has been compelled to resign his position on account of ill health, and Mr. Rufus A. Lyman

has accepted the appointment. ANOTHER RICHMOND IN THE FIELD.-Mr. S. Magnin has just returned from the coast with a large and varied assortment of dry goods, clothing, etc. which he offers at unprecedentedly low prices. He believes that all classes should participate in the

ACCIDENT AT KOHALA.-By letter from Kohala we learn that a half-caste child of that place recently had the misfortune to lose two fingers from one hand and three fingers from the other, by get-ting them caught in the cog-wheels of a turning-

We have received from Mr. 41. McFarlane euriosity, in the floral department, being no less than a full blown rose, from the centre of which a branch covered with leaves had shot forth curious in floraculture may be able to account for

2,700,000 oranges to the San Francisco market in 1876. The lemons numbered 350,000, and limes 128 000. The production of these tropical fruits in ornia is rapidly extending, and there is every ability that that market will soon be supplied entirely by home growth. FIJI GROUP NUGU ONGEA REEF -Captain Caval-

1 It is stated that Southern California sen

follows: Nagu Ongea Reef, S. E. extreme, Fiji Group.—"Is placed in chart (2091) 10 miles too far to the westward. It is correct in istitude. Longitude by Captain Cavalry, 178, 20, 0 W." A SACCHARINE BONANZA. - From ninety-two seres of plant cane, on the Libue Plantation, Kausi, the enormous crop of three hundred and ninety

tons of sugar were produced, being at the rate of 8,606 pounds to the acre. This result is due to irrigation, as the yield formerly rarely exceeded one and a half tons to the acre. SALE OF SUGAR MILL-It is reported that the mill and cane owned by Mr. Hinds, at Kohala, has lately been purchased by Messrs. Wood, Vida, and Holmes, for the sum of \$05,000. Since writing the above we learn that there is some bitch in the bargain, and that it is possible that the sale may not be

INTERNATIONAL COURTESIES.-On the 22nd of February,-Washington's birthday-the Russian fleet of war vessels, lying at Mare Island, joined the American fleet in firing a nation salute in honor of the day. A few days later, on the occasion of the Emperor's day, the American fleet returned the compliment by joining to the celebration.

H. B. M. S. FANTOME.-This war-vessel left port on Monday last for a trip to Hawaii. The British Vice Consul T. H. Davies Esq., took passage by her, expecting to land at Mahukona, after which the Fantome will proceed to Kona, where the Com-missioners will meet her and embark for the Island

FINE SUGAR .- We are indebted to Messrs, Afone & Achaek for a keg of sugar, from the new crop of the Kaupakaea Plantation, Hawaii, of which over seven hundred kegs were shipped by the Murray, which sailed yestersby. This sugar is of very light color, of large crystals, and fully equal to any we have yet seen. The crop of this plantation for the present year promises to exceed one and a half millions of pounds.

lishment, which has just opened on Fort Street, has been the focus of attraction during the past week, it having been crowded from morning till night from the day of opening to the present time. It is currently reported that the sales the first day amounted to about \$1,300. The reason for this is very simple, viz: good quality of merchandise, very low prices, and very liberal advertising. It

AN IMPROVEMENT .- The Road Supervisor is doing a good work on the Nunanu valley road, by filling the water-courses on the sides of the highway, which rendered travel always precarious, and at night positively dangerous. These improvements have been carried out from the Nuuanu cometery up the road for about a mile, and have in many places increased the width of the roadway by

THE RECCLAR PACKET,-The bark D. C. Murray left promptly yesterday after a stay in port of eight days, taking a full cargo, consisting of five thousand packages of sugar, five hundred and forty-six bags of rice, and a large quantity of bananas, and other discellaneous articles. Some fifteen or more cabin passengers also went by her, a list of whom may be found in the appropriate column. This vessel brought from San Francisco twenty-one passengers, who all agree that the voyage in her is not surpassed in the steamer, for comfort, fare or pleasure.

LIFE -Can anything be more truthful or touching than the following lines, by Jean Ingelow, which tell the whole story of life?

"Sweet is childhood-childhood's over: Kiss and part. Sweet is youth; but youth's a rover-Sweet is rest; but all my showing Toll is nigh. We must go. Alas the going! Say, 'Good-bye.'

RED CORALS IN THE ATLANTIC.-The scientific world is greatly interested in the statement that Fort street, had his attention attracted to the second the United States ship-of-war Gettysburg, in a story of the building, where the photographic gal- voyage from Fayal to Gibraltar, discovered an immense coral reef, located in latitude 36 deg. 39 min. breaking of glass. A passer-by, whose attention north, and longitude 11 deg. 23 min. west. Until

PERSONAL .- Among the passengers on the City of Sydney was Mr. G. C. Levey, a leading journalist No. 1 has the credit of being the first on the ground of Melbourne, and Secretary to the Victoria Comwith its engine, getting water on to the fire some mission at the Centennial Exposition, who is refour minutes shead of any other engine-although turning home. While sojourning in the States he its engine-house is situated at a greater distance became engaged to and married Mrs. Bouligni, from the scene of the conflagration than either of Washington. His bride was prevented from ac-

STEAMER KILAUEA.-This boat has been in the hands of the carpenters and caulkers since her return to port after her unsuccessful attempt to get to Hawaii on the 5th instant. She has been repaired and strengthened by the addition of new planking and timbers, inside and out. It having been found that there was a good deal of leakage around the sleeve of the propeller shall, it was taken out, and, upon examination, it was discoverdoors of the store, and commenced to remove the ed that the shall was cracked two-thirds through just inside of the outer bearing. The brass sleeve which surrounds the shaft at this place had caused s galvanic action which had eaten into the iron shaft, and more especially at the end of the sleeve, where a neck had been formed nearly an inch in depth. The erack was located at this spot, and while a small part of it gave evidence of having exof the house was cauchy consumed, but the lower story remains almost untouched by Nre, neither did the adjoining buildings, on the precises of Mr. C. E. Williams, on listed street, although of wood, sustals much damage, facts which speak loudly in praise of the efficiency of the foodulay fire Department. Mr. Williams' large brick building on Fort street, which adjoined the house consumed, formed an impregnable barrier on that side. The eract was located at this spot, and while a small part of it gave evidence of having experiment. Mr. Williams' large brick building on Fort street, which adjoined the house consumed, formed an impregnable barrier on that side. The eraction of a few nore such structures about the town, among the woodon buildings, would afford as much protection as another fire tarigade, and should be encouraged. There was no insurance on the building, neither on the stock of Mr. Chase and Messrs Grunwaid & Schutte, and the total loss cannot be far from \$4000. We are informed that a fire-proof brick edifice is to be eracted immediately on the corner, in the place of the structure just destroyed. The cause of the fire is unknown, but it is supposed to have originated in the dark-room of the photographic gallery.

FROM HILO.-The elipper schooner Kauwiki arrived yesterday morning from the third city of the Kingdom, bringing a full cargo of awa-the drug that both cheers and inebriates, and also several items of news which we give elsewhere.

Exhibition of Chauncy Hall School.—"Wanting one year only of the completion of the first century of the xistence, the Chauncy Hall School has carned a proud position among the educational institutions of a city whose facilities for popular culture are believed to be unsurpassed. Its course of study is comprehensive and thorough; it has an ample corps of experienced teachers, and the character of its graduates has contributed in no small degree to extend its lame even beyond the borders of the Commonwealth. It admits both sexes to its privileges—the present roll of 250 containing the names of about thirty young ladles. The forty-ninth exhibition was held yesterday afternoon, and the attendance was large, cultured and enthusiastic. As usual the doors were closed at the opening of the exercises, and subsequent admissions were allowed only during the musical interludes, which occurred every fifteen or twenty minutes. The only decoration of the hall was a EXHIBITION OF CHAUNCY HALL SCHOOL -"Wantminutes. The only decoration of the ball was a large basket of callas and other choice flowers, which were suspended by a floral cable enwined around the statute of Beethoven in Iront of the great organ. Instrumental music was furnished by the full Germania Orchestra, and the exercises were commenced by the performance of excellent selec-tions from Wagner and Stranss. Three o'clock was the hour named for commencing the programme, and promptly at ten minutes before that bour the school entered from the side doors and marched upon the platform under the command of Major C. Guild, jr. The admirable military discipline was C. Guild, p. The admirable military discipline was a source of constant delight to the audience as the boys filed past each other to seats upon the platform and in the first balcomy on either side. One of the most noticeable features of the entire exhibition was the promptness and precision with which each exercise was conducted. ot a moment's delay for the entire three hours It may also be stated that the admirable training of the school was manifest in the clear, distinct enun-ciation, the appreciative tones and expressive gen-tures of the several speakers. The singing by a ry, of the steamship City of New York, reports as

chorus of the girls and boys was also worthy of especial attention. The opening recitation was one of William Motherwell's vigorous poems, given with a true spirit by Stanton Day. One of Poero's orations was very finely declaimed with a clear pronounciation of the original Latin by Herbert Austin. And this was followed by Mark Twain's tunny stanch before the New England Society of New Stanch Latin the New Englan York on New England weather by John Chandler and a spirited recitation of a poem relative to the gallant General Custer of Walter N. Buffom. The gold medal of the Chandler Hall Association awarded by a vote of the former members of the spirited residual to the former members of the spirited spirited by the spirited spirited spirited by the spirited spi school, taken two weeks before the exhibition to the boy who is considered by his schoolmates to be the best boy in the school, and the prize for per-fectly regular attendance and entire punctuality to four years was awarded to Herbert Austin, who four years was awarded to Herbert Auslin, who had not been late or absent for four years and a half. In connection with this award Mr. Ladd mentioned the interesting fact that thirty-three years ago, at the exhibition of the school in the old Yederal Street Theatre, the gold medal of the Association was awarded to Mr. James Austin, the father of the young man who had just received it. The recipients were warmly applanded as they came forward; and three cheers were given for Master Austin. The school was then dismissed by the officers of the Battalion at precisely three hours from the commencement."

The above extract from the Boston Journal of the 1st ultimo will be read with interest by the friends of Mr. Austin on Hawaii nei. He resided here for many years, and here was born the young gentleman who had the distinguished honor of be ing the recipient of the gold medal above mentioned. We may add in this connection that young Austin formerly attended school at St. Alban's College, and subsequently at Oahu College in this place, and at these institutions was undoubtedly laid the foundation of that high scholarship which has now distinguished him.

LATE FOREIGN NEWS!

Grand Duke Alexis and suite arrived at New York Saturday 17th.

The Duke of Edinburgh has resigned command of the steamship Sultan, and returned to England.

It has been resolved by the Sacred College that any Cardinal may be elected Pope, on the death of

The San Francisco Chamber of Commerce have petitioned Congress for a semi-monthly mail service between the coast and China and Japan.

The Herald says: A large consignment of wheat reached New York Sunday from Liverpool, because wheat briness more money here than in England.

wheat brings more money here than in England.

New York, Feb. 21.—A cable dispatch states that
30 vessels, many with their cutive crews, have been
lost in the gale on the English coast on the night of
the 19th. The area of the storm was exceptionally extensive. It embraced the greater part of the British Islands, and the whole of Northern and Cen-tral France. The violence of the storin was extra-ordinary. The force of the gale has been equaled during recent years by that of a few weeks ago.

New York, Feb. 21.—A Times Raleigh special says: A bill is now before the Senate to amend the

says: A bill is now before the Senate to amend the Constitution so as to require a person, who applies to yote, to exhibit his receipt for poll-tax for the preceding year. The Bemocratic organs are pressing this bill, on the ground that it will virtually disfranchise 25,000 to 30,000 negroes, and thus make North Carolina as firmly Democratic as Georgia.

Boston: Feb. 21.—A letter received from Captain Kane, of the schooner F. E. McDonald, on the West Kane, of the schooner F. E. McDonald, on the West Coast of Africa, says that in January, on his passage from Boston, he fell in the wreck of the British burk Maria, having on board two survivors of the crew of fourteen men, the others having perished from exposure and famine. The wreck was discovered in latitude 23 22, longitude 32 30, with masts gone and full of water. The two men were taken on board the schooner, but one died within four hours. The bark was bound from Dobay Gorgia to Belfast. She sprung a leak in a gale and filled with water, so it was impessible to save the provisions or fresh water. The lumber with which the ressel was laden provented her from sinking, but the weight of her masts turned the vessel on her beam ends until the masts broke away, when she righted, weight of her masts turned the vessel on her beam ends until the masts broke away, when she righted, and the men regained the deck, having no tood or water. Then they soon began to die of starvation. As soon as one died the rest subsisted upon the dead body, and so on until only two were left. One survivor, James Mc Laughlin, belongs to Belfast, Ireland, says that only small pertions of the body could be eaten. The moment one died the survivors cut the throat of the deceased and drank his blood, and then divided the heart and brains. It was thirty-two days from the time of the disaster until the wreck was sighted. During that time the crew had not a drop of water or food, other than the bodies of their dead shipmates.
